Internships

Imagyn Technologies

.NET Developer   Mar - May : 2025

3 months paid internship

EDUCATION

Quaid-E-Awam University of Engineering, Science and Technology

BS Computer Science - 3.67   Dec 2020 - Sep 2024

PROJECTS

Game Catelog ↗
Microservices based Game Catalog developed using **ASP.NET Core**, **Dockerized SQL Server** and **EF Core** for backend and **React** + **Bootstrap** + **Material UI** for the frondend

Sentiment Analysis with Python and Flask ↗
Developed, trained and deployed ML model for **sentiment analysis** on given input text. The model is deployed on the huggingface.co and Flask is used for the frontend.

Interactive Web sites and Web applications ↗
Developed multiple full-stack web applications using **.NET** (Core/MVC) for backend and **React** with **JavaScript** / **TypeScript** for frontend. Experienced in building **APIs**, handling **SQL Server** databases, and creating responsive UIs.

Personal Portfolio Website ↗
Crafted a user-friendly portfolio website emphasizing intuitive navigation and **mobile-first design** to showcase my skills and projects using **HTML**, **JavaScript** and **CSS**

SKILLS

- **Frontend:** Bootstrap, JavaScript, TypeScript, React
- **Backend & Frameworks:** .NET Core, Flask
- **Databases:** SQL Server & MySQL
- **Architectures & APIs:** Microservices, MVC, RESTful APIs
- **Tools & Platforms:** Git (GitHub), Postman, Swagger
- **Programming Languages:** C#, Python, PHP
- **Data Science & ML:** Pandas, NumPy, Scikit-learn, TensorFlow, Tesseract, OpenCV

CERTIFICATE

Google Professional IT Certificate ↗
2022: 6 Months (remote)

Data Science with Python ↗
2023: 3 months

SQL Intermediate ↗
SQL Queries, T-SQL
